

# Write an algorithm that will count the number of nodes in a sll

12 August 2020

21:59

```
countnodes(start)
  if start= null
    print "error"
  end if
  ptr<-start
  c=0
  repeat
    ptr<-link->ptr
    c<-c+1
    if ptr= null
      exit
    end if
  end repeat
  print c
end
```
